

*Ivy L. Dumont (Dame), Retired Governor – General
Commonwealth of the Bahamas*

April 3rd, 2007

Mr. Mario Newry,

It has been more than a year since you interviewed me on your programme “Familiar Walk”. As I said to you at the taping, I would “retreat” for a year or so, God willing, from public comment and to organize my collection of papers etc. Working with you on that programme was a very pleasant experience and I look forward to, some day, another interview with you.

Over the last few weeks I have been looking into the operation of the Persis Rodgers Home for the Aged, and believe that would make a good topic for one of your programmes. I do believe old persons are a section of our society that needs to be examined and your show, I believe, would be an excellent vehicle for highlighting it. Your gentle way of conducting an interview is eminently suited to such programming.

I have noted your telephone number and will call you in due course.

Warm regards,

Ivy L. Dumont
